To Whom It May Concern:

It is a great pleasure to write a letter of recommendation for Olivia Blackman. Olivia was my student in her junior year in Accelerated Algebra 2. Over that span I found her to be a well-rounded student who possesses a down to earth personality and overall a positive demeanor. I have been extremely impressed by her attitude and drive to achieve excellence.

Immediately upon meeting Olivia, I knew she was going to be one of my favorite students. From day one she worked hard, had fun interacting with other students during lessons and asked excellent questions about concepts, not just the process. Olivia was one of my strongest students that year, and even though she found the material easier than her classmates she never seemed bored. What really stood out to me about Olivia was the ease in which she helped other students who were struggling through a problem. She would always take the time to explain what to do instead of just saying, "do it this way," and compliment others on a job well done.

There is no doubt in my mind that Olivia will be a huge success in college and beyond, as she approaches everything she does with immense and genuine interest. I think her success will flow not solely from her intellectual abilities, but also from her extremely positive attitude. Olivia has been involved in numerous activities throughout her high school career. In whatever activity she is involved in, she always respects other points of view and makes the most of experience. She participates because she wants to make a difference and expose herself to new experiences and opportunities. In sum, I think extremely highly of Olivia and think that she has all the qualities a university would look for in their students. I recommend her to you very highly and without any reservations.

Sincerely,

Susan Luciani
