To Whom It May Concern:

It is my pleasure to recommend to you Riley Forster. I have known Riley for over one year. She was a student in my Honors Pre-Calculus and Trigonometry class.

Honors Pre-Calculus and Trigonometry is considered to be the most difficult mathematics class we offer at Sharon High School. It is a culmination of all the Algebra and Geometry classes that a student has taken at Sharon and it asks students to apply all that they have learned to more in depth/ cross topic problems. In addition, a thorough and challenging study of Trigonometry is completed. All of the students go on to take BC calculus, AB calculus, AP Statistics or a combination of, their senior year. The students in this class are the brightest and hardest working students we have to offer. The class is a buzz daily with amazing thinking and questioning. It is truly an honor and joy to teach such an extraordinary group of students.

Riley is a conscientious and eager student. She puts in a great amount of effort into all her classes. She comes to class with a positive attitude, a willingness to risk and her active participation benefits the entire class. She has a personality that makes others feel at ease and works well solo or in a group. Riley enjoys learning and it shows every day. She is inquisitive and loves a good challenge. While others have their ups and downs, Riley always has the energy, drive and determination to master the latest concept. Her never give up attitude and her ability to think outside the box, help her to solve difficult problems. Riley bothers to ask questions that get at the understanding / meaning behind the algorithm rather than just memorizing it. I admire her mature approach to learning. She handles setbacks appropriately, reviewing her own work, getting help if needed and then moving forward.

Riley is a great human being and an intelligent, kind, driven student. I know that she will make her mark wherever she chooses to attend. She has my highest recommendation.

Sincerely,

Marie Cioffi
